Work Experience

PetPunk

Vilnius, Lithuania
www.petpunk.com
May 2011 – Aug 2011

During the period, I have spent together with Petpunk team, I had a chance to work on an independent short animation film. My tasks were: working with live action footage, keying elements from greenscreen, retouching, compositing and animating. Building necessary compositions, using stopmotion technique.

PetPunk

Vilnius, Lithuania
www.petpunk.com
Nov 2011, May 2012

Together with Petpunk collective we made an animation for a competition about global warming. I have helped with keying, rotoscoping and compositing of different elements, building compositions from 2D objects, and animating.

Flock of Pixels

Phoenix, USA
www.flockofpixels.com
Oct 2011

Flock of pixels studio invited me to join on creating a title sequence for a AIGA design conference in Phoenix. My job was and I mainly focused on designing styleframes and boards, after that animating and bringing them to life.

Invisible Light Network

New York, USA
www.invisiblelightnetwork.com
Apr 2012

We were working on a presentation of new MiO product line. My role included preparing boards for animation and then making them alive according to the script.
